Display

- High Definition LCD Screen
- Resolution: 1920x1080
- Brightness: 250 nits Contrast:
- 1000 CR Viewing Angles: 89/89/89/89
- Display Dimensions: 23.8"

System on Chip

- Integrated R Series SoC

Hardware Interfaces

- Micro-SD card slot
- 1x USB 2.0
- Phoenix GPIO (4-pin bi directional)*
- 3.5mm RS232-Serial*
- 3.5mm Analog/Digital Audio Out
- RJ45 Ethernet
- Wi-Fi, dual band 2.SGhz & SGhz 802.11ac
- Side-Facing LED Strips
- 2x custom push-buttons
- Front-facing microphone and speaker panels

Power

- Connector: Molex micro-fit jr.
- Included power adapter: DC 12V 4A
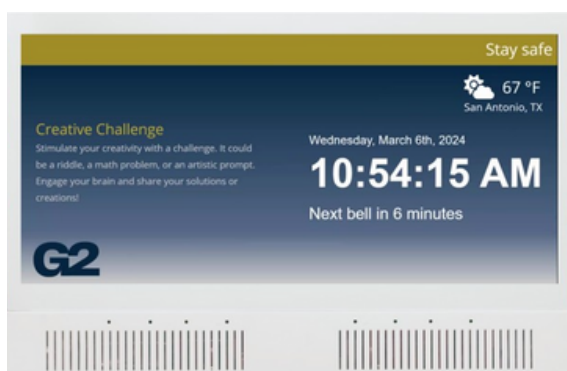

Speakers/Microphone

- Speaker Watts: 4Ω20W
- Microphone: Noise Cancelling

Highlights:

- Supports linear multi-mic and circular multi-mic microphone array layouts
- Multi-channel microphone audio can be processed through echo cancellation, sound source directional, beam forming, noise reduction and other algorithms in DSP.
- Cancel sounds played by your device and suppress ambient noise.
- The audio processed by DSP can be output upstream through the USB audio interface.
- Processed mono 16k16bit audio can be for speech arousal and recognition.
- Programmable USB Call Switch for multiple events.
- For echo cancellation, refer to the audio access method and select the analog channel input method.

Unit Dimensions

- 23.23" W x 18.39" H x 1.97" D
